INTRODUCTION

For your information and use, the district is pleased to present the 2020 - 2021 Parent/Student Handbook. Published by the Fairview Board of Education, the format of this handbook is to give an overview of the policies, procedures, and programs of the school district. For answers to specific questions or further information on a particular topic, we invite you to contact the principal of your child's school or the office of the Fairview Superintendent of Schools. Contact names and phone numbers are located on page 14.

The Schools

The Fairview Public School District is a Pre-Kindergarten through Grade Eight district operating in four buildings. They are Lincoln Elementary School (grades 5 to 8) located on Anderson and Day Avenues and Number Three School (grades 2 to 4) located on Cliff Street. The Lincoln School Annex is home to grades pre-kindergarten and kindergarten, and the School Three Annex, Located on Fourth Street is home to students in grade one.

The current elementary population is approximately 1530 children and is expected to continue to rise before leveling off later in the decade. In addition, there are approximately 550 Fairview high school students attending Cliffside Park High School.

The elementary program is designed to prepare our students academically, socially, and emotionally for entrance into high school. Along with traditional academic subjects, students are given instruction in fine arts, vocal music, physical education and health, and world language.

The district has continued to increase the use of technology by our students. Equipment is constantly being upgraded in an effort to keep students familiar with current trends. Currently every classroom in the district has a Promethean Board in place for the 2020-2021 school year. Technology is being utilized on a more consistent basis by both students and teachers.

Philosophy

The primary mission of the Fairview Schools is reflected in the district's motto: *Educating Our Children for Tomorrow*. This will ensure our students are prepared for the world of tomorrow by enabling them, in their decision making and through the development of solid communication skills, the ability to use emerging technologies and to think critically about the world in which they live.

Curriculum

The New Jersey Student Learning Standards, adopted by the state of New Jersey, form the basis upon which the district's curriculum is developed. Designed to insure that all students receive a 'thorough and efficient' education as guaranteed by the New Jersey Constitution, the standards cover all academic areas. Accordingly, each year several areas of the curriculum undergo a complete revision by our trained faculty. A complete copy of the grade level curricula is available through the main office of your child's school and can be viewed on the district website (www.fairviewps.org).

Technology

Our school district maintains a district-wide computer network that brings ultra-high speed internet access to each and every instructional and administrative space in the district. In addition every classroom has been equipped with a Promethean Board for use by teachers and students. Technology is being integrated into every facet of the curriculum in an effort to enhance instruction and improve standardized test scores. You are now able to communicate with your child's teacher via our own email system. Addresses are very simple and guarantee direct communication. All staff email addresses will be written as:

First initial, Last name@ fairviewps.org

with your teacher or principal's name being substituted.

The district website is now available. We hope you will come visit us. Our address is:
www.fairviewps.org

Your school district is also extremely conscious of the safety hazards associated with internet use by children and have taken steps to protect the privacy and safety of all our students. In addition, Microsoft-created network screening software, known as a firewall, prevents entry into objectionable and inappropriate sites by all users of the network. This firewall also helps insure that no computer viruses will be introduced to disrupt the instructional program.

Remaining security conscious, the district developed a set of guidelines for internet use in our schools. All students from the fourth through eighth grade must sign a statement, counter-signed by their parent or guardian, pledging to follow all such rules of usage. Infractions of this policy are subject to strong disciplinary action. Faculty, staff, and administrators sign a similar usage agreement.

The specific guidelines, disciplinary consequences, and the actual usage agreement are described in detail in Appendix A on pages 19-20.

Grading

Pre-kindergarten. Pre-kindergarten progress reports (i.e., report cards) are distributed three times per school year (December, March and June) with the following standards based grading system being used: "G" (Good progress), "W" (Working on scale), and "N" (Needs improvement).

Kindergarten. Kindergarten progress reports are distributed three times each school year (December, March and June) with the following standards based system being used: "S" (Satisfactory), "N" (Improvement needed), and "I" (Improving).

Grades One through Five Progress reports (report cards) for these grades are distributed three times per school year (December, March, and June) and the standards based system is used for all core subjects.

Grades 6-8 Progress reports (report cards) for these grades are distributed four times per school year (November, January, March and June) and the numerical grading system is used for all core subjects.

A grade of "Incomplete" is given only in cases of serious personal illness, emergency, or by prior arrangement with the teacher and principal. An incomplete grade becomes a failure within fifteen (15) school days. *Makeup work is the complete responsibility of the student.*

Cheating

Academic dishonesty in whatever form —cheating, plagiarism, etc. — is an extremely serious offense and will be dealt with accordingly. Penalties for academic dishonesty range from failure in that subject or class to an out-of-school suspension for the maximum allowable period.

Published each marking period, each grade has its own standards appropriate to the age level of the students in that grade. Honor Roll students are recognized in grades 4 – 8. Consult your child's classroom teacher or your building principal for further information.

School Records

The information provided in this section is pursuant to New Jersey Administrative Code (N.J.A.C.) Title 6A.

The Fairview Public School District has the responsibility of compiling and maintaining pupil records and for regulating access to these records in order to protect the rights and confidentiality of students, their families, and school personnel. Pupil records contain only such information as is relevant to the education of the pupil and is objectively based on the personal observations or knowledge of the certified school personnel who originate(s) the record.

Parents and guardians are hereby notified of their rights regarding pupil records and participation in pupil programs. Therefore, the Board of Education:

2. Assure the security of the records;
3. Makes known that all student records covered by this subchapter of N.J.A.C. are housed in the main office of each school, the nurse's office, and / or the Special Services Office, and further, that such records contain only (a) personal data such as name, address, date of birth, and gender; (b) record of daily attendance; (c) descriptions of pupil progress such as grades and test scores; (d) history and status of physical health; (e) records pursuant to rules and regulations regarding the education of handicapped pupils; and (f) all other records required by the State Board of Education;

6. Provide the parent or adult pupil a 10-day period to submit a written statement to the chief school administrator prohibiting the institution from including any or all types of information about the student in any student information directory before allowing access to such directory and school facilities to educational, occupational, and military recruiters pursuant to N.J.S.A. 18A.
7. Assure limited access to pupil records by secretarial and clerical personnel pursuant to N.J.A.C. 6A and
8. Provide for the access and security of pupil records maintained in a computerized system.

Parent Conferences

Parents and guardians are strongly encouraged to meet teachers and discuss their child's progress at parent conferences that may be scheduled throughout the year by simply notifying the teacher via email or calling the school's main office.

Special Programs

E.S.L. For students whose native language is other than English, English as a Second Language (E.S.L.) and bilingual education programs are offered. Designed to speed the rate at which students develop fluency in English, specially certified teachers offer small group instruction to students that is subject matter-based. The goal of these programs is to facilitate the student's transition into an English-only classroom environment.

Bilingual Education. Students whose native language is Spanish, and fall below the state determined levels of English proficiency, are provided instruction in reading and mathematics with a bilingual teacher. This program is offered in conjunction with the E.S.L. program. A team-teaching approach is used with Pre-K classes.

World Language Program. In an effort to develop the linguistic abilities of all Fairview students, the district offers instruction in Spanish to all of its pupils in grades pre-kindergarten through eight. An emphasis is placed on reading, speaking, and listening skills as well as an appreciation of other cultures.

Special Education

Child Study Team. The professional staff of our Child Study Team includes Psychologists, Learning Disabilities Specialists, Social Workers, and Speech Therapists which are available to all staff, students, and parents whenever the need arises. The Fairview Public Schools is also part of a Regional Education Consortium which provides greater flexibility in placing classified students in appropriate out-of-district programs when necessary. The district's policy toward placement of special education is to place the child in the least restrictive environment within the district whenever possible. The district has a wide ranging special education program including self-contained classes for some learning disabled students as well as Resource Center programs for learning disabled students.

Child Find Information. Parents who suspect that their pre-school age children may be learning disabled can get help from Fairview's Child Study Team. The Fairview Public Schools provide services for those children ages 3 to 5 who may have physical, cognitive, language, or emotional difficulties. Information may also be obtained on how and where to receive services for special children from birth to 3 years of age. For further information and assistance, parents should call 201-943-5662.

Title I. This is a federally funded program that provides remedial services to students who are in need of extra help in the basic skill areas of reading, language, and mathematics. Teachers in this program provide in class support to students in the areas of Math and English Language Arts.

L.E.A.D. The L.E.A.D. (Law Enforcement Against Drugs) program is a collaborative effort between the school district and the Fairview Police Department. Taught by trained police officers in conjunction with classroom teachers, this highly successful program is the cornerstone of the district's anti-drug abuse curriculum.

G.R.E.A.T. The (Gang Resistance Education and Training). Students in Grade 7 will participate in this program.

Guidance The purpose of the guidance program, run by our regular full-time teaching staff and administrators, is to enable each and every individual student to achieve his or her maximum growth, intellectually, socially, and emotionally. This is accomplished in many ways including:

1. Helping the new student feel at home in our schools with new teachers and friends in a different setting.
2. Providing individual conferences whenever a student, parent, teacher, or staff member feels necessary.
3. Utilizing a testing program designed to help the student learn as much as possible about his or her capabilities.
4. Offering a high school orientation program for eighth grade students and parents. This is done in conjunction with Cliffside Park High School and the Bergen Technical-Vocational School.

Standardized Testing Program

NJSLS: The state testing program (NJSLS) is mandated by the New Jersey Department of Education and will be administered in the spring. These tests are designed to identify those students who may have difficulty in passing the eleventh grade NJSLS assessment, a requirement for high school graduation. The tests are therefore a useful tool in determining a student's course schedule and placement in extra help and/or honors courses.

NJ ASK Science-Grades 5 & 8

Access for ELL's: The Access for ELL's is an ESL test administered to English Language Learners in grades K through 8. Results of these tests are used to determine a student's placement, schedule and eligibility for ESL and/or bilingual services.

Assemblies

Student assemblies are presented regularly throughout the school year. These assemblies are a combination of student performed programs and professionally produced productions. Subject content includes the celebration of various holidays and special events as well as relevant themes such as drug abuse prevention, environmental awareness, and career orientation programs. Students may be required to attend assemblies in buildings other than their own. Most district assembly programs take place at the Lincoln School gymnasium.

Field Trips

Provided funding is available, each class takes a minimum of one field trip per year to a location approved in advance by the Board of Education. Except for personal expenses, all costs of field trips are assumed by the district. In previous past years, destinations have included the Liberty Science Center, the Bronx Zoo, Space Farms, West Point, the Statue of Liberty and the John Harms Center.

Family Life Education

The Family Living curriculum is taught by certified teachers and all self-contained classroom teachers. In addition our school nurse is available as a resource person for all our staff. Appendix B (page 19) is a partial outline of that curriculum. HIV / AIDS education and sex education are part of this course and are taught as part of the Family Living program in grades K through 8.

Family Life Education can best be defined as instruction to develop an understanding of the physical, mental, emotional, social, and psychological aspects of interpersonal relationships. It is an opportunity for pupils to acquire knowledge which will support the development of responsible personal behavior, strengthen their own family life now and aid in establishing a strong family life for themselves in the future, thereby contributing to the enrichment of the community.

Each school maintains a copy of the complete curriculum and all instructional materials. If you desire

more information than is contained in the enclosed curriculum outline, you may arrange through the building principal to review any of these materials.

The purpose of making this information available is to enable you to make an informed judgment as to whether you want your child excused from a portion or portions of this course.

If you desire to have your child excused, the parent/guardian should put a request in writing, addressed to your school principal. In the event that your child is excused, an appropriate educational program will be provided in its place and no penalties as to credit or graduation will result from being excused.

EXTRA-CURRICULAR ACTIVITIES

Activities

National Junior Honor Society: Affiliated with the National Honor Society high school program, this service organization was started for the purpose of recognizing the achievements of scholastically talented and service-oriented students. Candidates for membership must earn high grades and participate in numerous community service activities.

Student Council: The Student Council provides student activities, serves as a training experience for student leaders, promotes the common good, gives students an opportunity to share in the management of the school, develops high ideals of personal conduct, seeks to interest students in school affairs, and helps solve problems that may arise. Members of the Student Council are elected directly by the student body and have direct access to the school and district administration.

Athletics: Students are offered the opportunity to participate in a number of interscholastic athletic programs including Boys' or Girls' Basketball, Baseball, Softball and Wrestling.

Yearbook. The school yearbook chronicles the annual activities of the school and is produced entirely by the eighth grade class under the direction of a faculty advisor. The project is financed, in part, through student fund-raising efforts.

Special Programs

Mayor / Board Member for a Day. Open to 7th and 8th graders, these annual programs allow students to participate in a simulated town election. Special evening meetings of both the borough Council and the Board of Education are held in order to allow participants the opportunity to receive first-hand knowledge of the democratic process. A luncheon for student participants is normally part of the festivities.

Dances. Periodically during the school year, dances are held in the gymnasium of Lincoln School. All eligible students are encouraged to attend and socialize with their friends at these dances.

Eighth Grade Dinner Dance. Each year, the graduating class participates in an end of the year dinner dance held at a local restaurant. The event is considered part of the graduation festivities.

Eligibility for Extracurricular Activities and Special Programs

All students are expected to meet appropriate academic and behavioral standards. Students whose work is not up to standard or who behave in a disruptive manner are deemed ineligible to participate in athletic or extracurricular activities. Complete regulations may be found in the *6th, 7th, and 8th Grade Student Handbook* distributed to students (Grades 6-8) during the first week of school.

HEALTH AND SAFETY

Emergency School Closings / Delayed Openings

On days when school is to be closed, delayed opening, or early dismissal, due to an emergency, you will be notified via the district notification phone system. This system has been implemented to insure that parents/guardians are kept informed. **It is imperative that you keep your contact information up to date and current.** This will insure prompt and accurate communication.

By 7:00 a.m. Channel 7 (ABC) News, will carry a message of either no school or delayed school opening. Emergency closing information is also posted on the district web site (www.fairviewps.org) and parents are notified via the Swift Reach Notification System.

All school closings will occur only in those instances that are deemed to be in the best interest and safety of your children. For additional information, please contact your building principal.

General Health Regulations

The Board of Education requires, as a pre-requisite for admission and attendance, immunizations for DPT, oral polio, measles, rubella, mumps, lead level, Tdap, Menactra, flu vaccine, and HIB. A Mantoux test is also required for all students entering the pre-kindergarten or kindergarten as well as for students entering from other countries. A physical examination is also required for entry into school. During the school years, booster shots will be required; notices to this effect will be sent home by the School Nurse at the appropriate time.

Whenever you find that your child has been exposed to a contagious disease such as chicken pox, lice, impetigo, or ringworm, you should contact the School Nurse at 201-943 – 0561 or 201-943-0563 in order that the proper precautions are taken to protect other students from infection.

The Board of Education in conjunction with the local Board of Health has established the following regulations concerning the isolation of person(s) with contagious diseases:

Chicken Pox: Isolation for at least six days. Non-purulent scabs need not have fallen off.

Strep Throat: A doctor's note describing a negative throat culture or antibiotic therapy is required.

Skin Rashes: Any skin rash not diagnosed by a physician is cause for exclusion from school.

Should your child become ill or have an accident at school, you will be notified and asked to escort your

child home. An addendum to this policy will be distributed to all parents each school year.

First aid in the case of accident or sudden illness consists only of immediate temporary treatment. It does not include suturing, skin clamps, x-rays, the setting of bones, or the administration of a tetanus shot, etc. It should be understood that any treatment not in the nature of first aid will be at the expense of parents / guardians. Insurance forms related to accidents may be obtained from the building principal or the School Nurse.

Policy on Administering Medication

If your child needs to take medication while in school (either prescription or over-the-counter), you must contact the building principal in advance. New Jersey State Law requires that written orders from your child's physician be obtained before any medication can be administered in school.

There are absolutely no exceptions to this policy.

School Health Services

The Fairview Board of Education employs two full time, certified School Nurses, as well as, a part-time physician, and a part-time dentist. Along with their other duties, the School Nurses assist the doctor and dentist in providing physical and dental screening examinations. Parents are urged to act upon recommendations incorporated into these reports.

Smoking

State law prohibits smoking in school buildings or on school grounds. The use and/or possession of tobacco or tobacco products are therefore absolutely prohibited. This applies on the way to and from school, during lunch, at school activities, and during any part of the school day. Violation of this rule is grounds for suspension from school.

Drug Awareness

The Board of Education's stated policy is to deal with the issue of drug abuse as an educational and medical one. The district's focus is on education and counseling with the goal being to prevent drug abuse before it happens. In those cases where a pupil is either found to be or is suspected of using controlled substances, the district shall work with the parents/guardians of said pupil, medical personnel, and where appropriate, with legal authorities to provide the necessary support for the pupil. Parents and students are advised that a strict 'no tolerance' policy is maintained by our schools.

Dress Code

In June of 2009, the Board of Education approved a uniform dress policy for all students in Grades 1 through 8. This policy requires students to wear specific clothing that will allow each individual to be identified as a student of the Fairview Public Schools.

Accordingly, the Board of Education has authorized the Superintendent of Schools to enforce the following regulations:

"Right to Know"

As required under New Jersey law (P.L. 1998, c. 364), parents and guardians are advised that notice of any construction or other activities involving the use of any hazardous substance will be posted in the school buildings and that some hazardous materials may be stored in our buildings at various times of the year. Hazardous materials fact sheets are available for review. For further information, please contact Mr. Patrick Caufield, Board Secretary.

AHERA Regulations

Pursuant to federal and state AHERA (Asbestos Hazard Emergency Response Act) regulations, a copy of the district's asbestos management plan, three year re-inspection and semi-annual surveillance report are available in the Board of Education offices.

STUDENT SERVICES

Policy on Student Phone Use and Messages

Students may not use the school telephone for personal calls except in an emergency situation and then only with permission from the building administrator. As well, messages will only be delivered to students on an emergency basis. *Students will not be called out of class to receive phone calls.*

Student Pictures

All students in the district are given the opportunity to have their picture taken by a professional photographer. Notices will be sent home before such pictures are taken. Parents and guardians are not, of course, under any obligation whatsoever to purchase pictures. This is done solely as a service to our students and their families.

Cafeteria and Lunchroom

Parents have the option of either having their children bring their lunch from home to eat in school, or of purchasing their lunch through the school cafeteria. A free / reduced lunch is available to those eligible families. Complete information on this program is sent home every September.

Parents are reminded that attendance in the school's lunch program is a privilege, not a right. Parents of students who are disruptive or exhibit disciplinary problems during the lunch period may be required to make alternative lunch arrangements.

Breakfast Program

The Fairview Public Schools offers a breakfast program for all students in Kindergarten through grade 8. A free/reduced breakfast is available to those families with limited financial means. Information on this program is sent home every September.

Lost and Found

If your child has lost anything, please check with the building principal to see if it was turned in. It is recommended that all of your child's possessions (eye glass cases, school bags, outer garments, etc.) be labeled with your child's name. This will facilitate items being returned in case of loss.

Children being registered at this time **must reach the age of four (4) on or before October 1st** of the year of school entry.

Kindergarten Registration for the September classes is normally held during the preceding Spring in the School Three Annex with classes also being held in the Lincoln School Annex. Children being registered at this time must reach the age of five (5) on or before October 1st of the year of school entry.

Children enrolled in the Fairview pre-kindergarten must make a separate registration for kindergarten for the following school year. Persons needing assistance or having questions should contact any district administrator.

Attendance

General regulations. Children are expected to be in school every day that school is in session unless ill. *A child who has a fever, chills, sore throat, severe coughing, skin eruption, earache, or other symptoms of illness should not be sent to school.* Such symptoms may indicate the beginning of a contagious disease and certainly justify the child being kept at home. Attendance at school is neither fair to the unwell child nor the pupils with whom the child comes into contact.

Absence reporting. For the protection of your child and the keeping of accurate attendance records, a parent or guardian is required to notify the school when the child will not be attending all or part of the school day. For a child enrolled in Lincoln School, please call 201.943.0561; if the child is enrolled in Number Three School, please call 201.943.0563; the Lincoln School Annex is 201.943.1699; and the #3 School Annex is 201.313.0249. All calls should be made by 9:00 a.m.

Notes. A note from a parent or guardian is required when a child returns after any absence, even though the parent has already notified the school. If your child is absent five (5) or more days, you are required to secure a doctor's re-admittance note; appropriately dated, stating the pupil is free of any contagious or communicable disease(s).

In order that your child is excused for any absence other than illness, you are required to secure permission from the building principal in advance of any such absence. Your cooperation is appreciated.

Lateness. Like excessive absence, lateness can be seriously disruptive to the learning process, both for the tardy students and his or her classmates. Therefore, excessive lateness is considered to be a serious breach of school rules and will be dealt with accordingly. Parents are urged to see to it that their children are in school regularly and are on time.

GENERAL SCHOOL POLICIES

Discipline

General policy: The philosophy of the Fairview Public Schools is that all students can and should behave appropriately in the classroom environment. We will not tolerate any student who prohibits a teacher from teaching or a student from learning. Therefore, a code of conduct has been established to insure the right of all to a school free from distractions.

Central detention: As part of the overall discipline plan, students who do not abide by school rules are subject to central detention. Reasons for the imposition of this penalty include, but are not limited to, unsatisfactory classroom/hall/cafeteria/schoolyard behavior, violation of the dress code, lateness, or other behavior difficulties.

Suspension Alternative Program: Students who violate a school rule or code of conduct will be required to attend the S.A.P. Program which is conducted on Saturday morning from 8:00 – 11:00 A.M.

Suspension: More serious violations of school rules may result in a suspension from classes, either in-school or out-of-school. Reasons for suspensions include, but are not limited to, truancy, fighting, obscenities, continued defiance or disregard for school rules, safety hazards, stealing, forgery, vandalism, or academic dishonesty.

Students who receive one (1) suspension during the school year may participate in social / school activities only after a review of their suspension by the building principal and the Superintendent of Schools. Care of School Property

Books and supplies: The Board of Education supplies textbooks, workbooks, and an adequate amount of supplies. Pupils are expected to exercise reasonable care in the handling of textbooks and other school materials. All textbooks must be covered.

Vandalism and property damage: Pupils should also realize that the school building, grounds, and all other facilities provided for their education are paid out of general tax funds. The law provides that parents are financially responsible for proper restoration.

Locker Information: Lockers are provided to sixth, seventh and eighth grade students for their personal use. Only school provided combination locks may be used. A refundable deposit of \$5.00 is required for these locks.

Search and Seizure

Although provided for student use, lockers remain the property of the Fairview Board of Education and are therefore subject to administrative search at any time. This is done on a random basis in the interest of school safety, health, cleanliness, and discipline. Lockers may also be searched by law enforcement officials upon presentation of a duly executed warrant.

A student and/or his possessions may be searched by school officials when there are reasonable grounds to believe that an illegal or prohibited substance or object may be present. Lockers may be searched randomly (NJS 18A:36-19.2) in an effort to insure the safety of our students.

Affirmative Action / Equal Opportunity

The Fairview Public School District is an equal opportunity / affirmative action employer. Should you have any difficulty in this area, please contact Mrs. Lucille Juliano, the district's Affirmative Action / E.E.O. officer, at 201-313-0249.

PARENT-TEACHER ASSOCIATION (PTA)

There is a Unified PTA in the Fairview Public School District. The Board of Education is of the opinion that parents, in fact, all adult residents of Fairview, should take an interest in this important organization. It is hoped that individuals will take the opportunity to support the schools in their efforts to promote the welfare of Fairview children at home, school, church, and community.

The Board of Education and the Superintendent of Schools strongly urge you to become an active participant in these vital organizations. Your help can make a difference in the lives of our children.

For more information on the PTA, please contact the main office of your child's school.

Fairview Public Schools Computer Network Guidelines for Users 2020-2021

The following guidelines will be in effect for the 2020-2021 school year and are subject to change. As our teachers' and students' experience with the network increases so too will these guidelines to meet changing needs. Parents and guardians will be notified of any such changes as they are implemented.

Introduction

We are pleased to offer students of Fairview Public Schools access to the district computer network resources and the Internet. To use these resources, all students must sign and return this form, and those under age 18 must obtain parental permission. Parents, please read and complete this document carefully, review its contents with your son/daughter, and sign and initial where appropriate. Any questions or concerns about this permission form or any aspect of the computer network should be referred to your school's Computer Instructor. For contact information, please visit the school website at www.fairviewps.org.

General Network Use

The network is provided for students to conduct research, complete assignments, and store information. Access to network services is given to students who agree to act in a considerate and responsible manner. Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Access is a privilege - not a right. As such, general school rules for behavior and communications apply and users must comply with district standards and honor the agreements they have signed (see over).

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will be private.

Internet / World Wide Web / E-mail Access

Access to the Internet and e-mail will enable students to use thousands of libraries and databases. Within reason, freedom of speech and access to information will be honored. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. Filtering software is in use, but no filtering system is capable of blocking 100% of the inappropriate material available on the Internet. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Fairview Public Schools support and respect each family's right to decide whether or not to apply for access (see over). Please note that computer use is necessary for computer class for all middle grade students.

Publishing to the World Wide Web

Parents, your daughter or son's work may be considered for publication on the World Wide Web, specifically on his/her school's web site. Such publishing requires parent/guardian permission (see over). The work will appear with a copyright notice prohibiting the copying of such work.

Unidentified photos of students may be published on the district website (www.fairviewps.com), illustrating student projects and achievements. **If you do not want your child's photo to be published on the website,** please indicate this on the RESTRICTION OF RELEASE OF DIRECTORY INFORMATION form (distributed by the technology teacher).

DRUG, ALCOHOL, WEAPONS AND VIOLENCE ZERO TOLERANCE POLICY

The district's zero-tolerance policy is clear. ***Any incident involving drugs of any kind, alcohol, or violence is unacceptable. The steps that are taken in all such cases, no matter how large or small the potential risk to our students and staff may be, are as follows:***

The student (s) involved will be suspended from school and will remain out of school for a minimum of three to five days. Additional disciplinary actions follow and are determined on a case-by-case basis.

The Fairview Police Department is always notified in such cases. School officials work with local law enforcement to determine whether criminal charges are appropriate. At the very least, an incident report is filed and the Juvenile Officers become involved with the student (s) and their parent/ guardians.

Before being readmitted to school, the student (s) will be evaluated by a district screened psychiatrist (an M.D. not employed by the school district) to determine whether the students pose any risk to themselves or others. For the student (s) to re-enter, the physician must sign a statement certifying that the student (s) does not pose a risk if he or she returns to school.

Next, again before being allowed to return to class, the student is evaluated by a psychologist and a social worker who are part of our district's Child Study Team. They make their own recommendation as to whether the child should be permitted to return to school. Then and only then is a child permitted to re-enter school.

Finally, if and when the student (s) involved in an incident are allowed to return to school, a full program of counseling is mandated as a condition for school attendance.

This Zero- Tolerance Policy is one part of the district's overall plan for guaranteeing the safety and security of all students and staff. The safety and security of our students and faculty are our number one concern and priority.

A. Policy Statement

The Board of Education prohibits acts of harassment, intimidation, or bullying of a pupil. A safe and civil environment in school is necessary for pupils to learn and achieve high academic standards. Harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a pupil's ability to learn and a school's ability to educate its pupils in a safe and disciplined environment. Since pupils learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

For the purposes of this Policy, the term "parent," pursuant to N.J.A.C. 6A:16-1.3, means the natural parent(s) or adoptive parent(s), legal guardian(s), foster parent(s), or parent surrogate(s) of a pupil. Where parents are separated or divorced, "parent" means the person or agency which has legal custody of the pupil, as well as the natural or adoptive parent(s) of the pupil, provided such parental rights have not been terminated by a court of appropriate jurisdiction.

B. Harassment, Intimidation, and Bullying Definition

“Harassment, intimidation, or bullying” means any gesture, any written, verbal or physical act, or any electronic communication, as defined in N.J.S.A. 18A:37-14, whether it be a single incident or a series of incidents that:

1. Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability; or
2. By any other distinguishing characteristic; and that
3. Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3, that substantially disrupts or interferes with the orderly operation of the school or the rights of other pupils; and that
4. A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a pupil or damaging the pupil's property, or placing a pupil in reasonable fear of physical or emotional harm to his/her person or damage to his/her property; or
5. Has the effect of insulting or demeaning any pupil or group of pupils; or
6. Creates a hostile educational environment for the pupil by interfering with a pupil's education or by severely or pervasively causing physical or emotional harm to the pupil.

“Electronic communication” means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, or pager.

C. Pupil Expectations

The Board expects pupils to conduct themselves in keeping with their levels of development, maturity and demonstrated capabilities with proper regard for the rights and welfare of other pupils and school staff, the educational purpose underlying all school activities and the care of school facilities and

The Board believes that standards for pupil behavior must be set cooperatively through interaction among the pupils, parents, school employees, school administrators, school volunteers, and community representatives, producing an atmosphere that encourages pupils to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school district and community property on the part of pupils, staff, and community members.

Pupils are expected to behave in a way that creates a supportive learning environment. The Board believes the best discipline is self-imposed, and it is the responsibility of staff to use instances of violations of the Code of Pupil Conduct as opportunities to help pupils learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with pupils shall apply best practices designed to prevent pupil conduct problems and foster pupils' abilities to grow in self-discipline.

The Board expects that pupils will act in accordance with the pupil behavioral expectations and standards regarding harassment, intimidation, and bullying, including:

1. Pupil responsibilities (e.g., requirements for pupils to conform to reasonable standards of socially accepted behavior; respect the person, property and rights of others; obey constituted authority; and respond to those who hold that authority);
2. Appropriate recognition for positive reinforcement for good conduct, self-discipline, and good citizenship;
3. Pupil rights; and
4. Sanctions and due process for violations of the Code of Pupil Conduct.

Pursuant to N.J.S.A. 18A:37-15(a) and N.J.A.C. 6A:16-7.1(a)1, the district has involved a broad-base of school and community members, including parents, pupils, instructional staff, pupil support services staff, school administrators, and school volunteers, as well as community organizations, such as faith-based, health and human service, business and law enforcement, in the development of this Policy. Based on locally determined and accepted core ethical values adopted by the Board, pursuant to N.J.A.C. 6A:16-7.1(a)2, the Board must develop guidelines for pupil conduct pursuant to N.J.A.C. 6A:16-7.1. These guidelines for pupil conduct will take into consideration the developmental ages of pupils, the severity of the offenses and pupils' histories of inappropriate behaviors, and the mission and physical facilities of the individual school(s) in the district. This Policy requires all pupils in the district to adhere to the rules established by the school district and to submit to the remedial and consequential measures that are appropriately assigned for infractions of these rules.

Pursuant to N.J.A.C. 6A:16-7.1, the Superintendent must annually provide to pupils and their parents or guardians the rules of the district regarding pupil conduct. Provisions shall be made for informing parents or guardians whose primary language is other than English.

The district prohibits active or passive support for acts of harassment, intimidation, or bullying. Pupils are encouraged to support other pupils who:

1. Walk away from acts of harassment, intimidation, and bullying when they see them;
2. Constructively attempt to stop acts of harassment, intimidation, or bullying;

3. Provide support to pupils who have been subjected to harassment, intimidation, or bullying; and
4. Report acts of harassment, intimidation, and bullying to the designated school staff member.

The following factors, at a minimum, shall be given full consideration by school administrators in the implementation of appropriate consequences and remedial measures for each act of harassment, intimidation, or bullying by pupils. 4. The alleged behavior creates a hostile educational environment for the pupil by interfering with a pupil's education or by severely or pervasively causing physical or emotional harm to the pupil.

F. Harassment, Intimidation, and Bullying Reporting Procedure

The Board of Education requires the Principal at each school to be responsible for receiving complaints alleging violations of this Policy. All Board members, school employees, and volunteers and contracted service providers who have contact with pupils are required to verbally report alleged violations of this Policy to the Principal or the Principal's designee on the same day when the individual witnessed or received reliable information regarding any such incident. All Board members, school employees, and volunteers and contracted service providers who have contact with pupils, also shall submit a report in writing to the Principal within two school days of the verbal report.

The Principal will inform the parents of all pupils involved in alleged incidents, and, as appropriate, may discuss the availability of counseling and other intervention services. The Principal, upon receiving a verbal or written report, may take interim measures to ensure the safety, health, and welfare of all parties pending the findings of the investigation.

Pupils, parents, and visitors are encouraged to report alleged violations of this Policy to the Principal on the same day when the individual witnessed or received reliable information regarding any such incident. Pupils, parents, and visitors may report an act of harassment, intimidation, or bullying anonymously. Formal action for violations of the Code of Pupil Conduct may not be taken solely on the basis of an anonymous report.

A Board member or school employee who promptly reports an incident of harassment, intimidation, or bullying and who makes this report in compliance with the procedures set forth in this Policy, is immune from a cause of action for damages arising from any failure to remedy the reported incident.

In accordance with the provisions of N.J.S.A. 18A:37-18, the harassment, intimidation, and bullying law does not prevent a victim from seeking redress under any other available law, either civil or criminal, nor does it create or alter any tort liability.

The district may consider every mechanism available to simplify reporting, including standard reporting forms and/or web-based reporting mechanisms. For anonymous reporting, the district may consider locked boxes located in areas of a school where reports can be submitted without fear of being observed.

A school administrator who receives a report of harassment, intimidation, and bullying from a district employee, and fails to initiate or conduct an investigation, or who should have known of an incident of harassment, intimidation, or bullying and fails to take sufficient action to minimize or eliminate the harassment, intimidation, or bullying, may be subject to disciplinary action.

H. Harassment, Intimidation, and Bullying Investigation

The Board requires a thorough and complete investigation to be conducted for each report of an alleged incident of harassment, intimidation, or bullying. The investigation shall be initiated by the Principal or the Principal's designee within one school day of the verbal report of the incident. The investigation shall be conducted by the school Anti-Bullying Specialist. The Principal may appoint additional personnel who are not school Anti-Bullying Specialists to assist the school Anti-Bullying Specialist in the investigation.

The investigation shall be completed and the written findings submitted to the Principal as soon as possible, but not later than ten school days from the date of the written report of the alleged incident of harassment, intimidation, or bullying. Should information regarding the reported incident and the investigation be received after the end of the ten-day period, the school Anti-Bullying Specialist or the Principal shall amend the original report of the results of the investigation to ensure there is an accurate and current record of the facts and activities concerning the reported incident.

The Principal shall proceed in accordance with the Code of Pupil Conduct, as appropriate, based on the investigation findings. The Principal shall submit the report to the Superintendent within two school days of

This information shall be provided in writing within five school days after the results of the investigation are reported to the Board of Education.

A parent or guardian may request a hearing before the Board of Education after receiving the information. When a request for a hearing is granted, the hearing shall be held within ten school days of the request. The Board of Education shall conduct the hearing in executive session, pursuant to the Open Public Meetings Act (N.J.S.A. 10:4-1 et seq.), to protect the confidentiality of the pupils. At the hearing, the Board may hear testimony from and consider information provided by the school Anti-Bullying Specialist and others, as appropriate, regarding the alleged incident, the findings from the investigation of the alleged incident, recommendations for consequences or services, and any programs instituted to reduce such incidents, prior to rendering a determination.

At the regularly scheduled Board of Education meeting following its receipt of the report or following a hearing in executive session, the Board shall issue a decision, in writing, to affirm, reject, or modify the Superintendent's decision. The Board's decision may be appealed to the Commissioner of Education, in accordance with N.J.A.C. 6A:3, Controversies and Disputes, no later than ninety days after issuance of the Board of Education's decision.

A parent, pupil, legal guardian, or organization may file a complaint with the Division on Civil Rights within one hundred eighty days of the occurrence of any incident of harassment, intimidation, or bullying based on membership in a protected group as enumerated in the "Law Against Discrimination," P.L.1945, c.169 (C.10:5-1 et seq.).

I. Range of Responses to an Incident of Harassment, Intimidation, or Bullying

The Board authorizes the Principal of each school, in conjunction with the Anti-Bullying Specialist, to define the range of ways in which school staff will respond once an incident of harassment, intimidation, or bullying is confirmed, and the Superintendent shall respond to confirmed harassment, intimidation, and bullying, according to the parameters described in this Policy. The Board recognizes that some acts of harassment, intimidation, or bullying may be isolated incidents requiring the school officials respond appropriately to the individual(s) committing the acts. Other acts may be so serious or parts of a larger pattern of harassment, intimidation, or bullying that they require a response either at the classroom, school building or school district level or by law enforcement officials.

Consequences and appropriate remedial actions for a pupil who commits an act of harassment, intimidation, or bullying may range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37-1, Discipline of Pupils and as set forth in N.J.A.C. 6A:16-7.2, Short-term Suspensions, N.J.A.C. 6A:16-7.3, Long-term Suspensions and N.J.A.C. 6A:16-7.5, Expulsions.

In considering whether a response beyond the individual level is appropriate, school officials shall consider the nature and circumstances of the act, the degree of harm, the nature and severity of the behavior, past incidences or past or continuing patterns of behavior, and the context in which the alleged incident(s) occurred. Institutional (i.e., classroom, school building, school district) responses can range from school and community surveys, to mailings, to focus groups, to adoption of research-based harassment, intimidation or bullying prevention program models, to training for certificated and non-certificated staff, to participation of parents and other community members and organizations, to small or large group presentations for fully addressing the actions and the school's response to the actions, in the context of the acceptable pupil and staff member behavior and the consequences of such actions, and to the involvement of law enforcement officers, including safe schools resource officers.

For every incident of harassment, intimidation, or bullying, the school officials must respond appropriately to the individual who committed the act. The Board is encouraged to set the parameters for the range of responses to be established by the Principal and for the Superintendent to follow. The range of responses to confirmed harassment, intimidation, or bullying acts should include individual, classroom, school, or district responses, as appropriate to the findings from each incident. Examples of responses that apply to each of these categories are provided below:

1. Individual responses can include positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) and punitive actions (e.g., detention, in-school or out-of-school suspension, expulsion, law enforcement report, or other legal action).
2. Classroom responses can include class discussions about an incident of harassment, intimidation or bullying, role plays, research projects, observing and discussing audio-visual materials on these subjects, and skill-building lessons in courtesy, tolerance, assertiveness, and conflict management.
3. School responses can include theme days, learning station programs, parent programs, and information disseminated to pupils and parents or guardians, such as fact sheets or newsletters explaining acceptable uses of electronic and wireless communication devices or strategies for fostering expected pupil behavior.
4. District-wide responses can include community involvement in policy review and development, professional development programs, adoption of curricula and school-wide programs, coordination with community-based organizations (e.g., mental health, health services, health facilities, law enforcement officials, faith-based organizations), and disseminating information on the core ethical values adopted by the district Board of Education's Code of Pupil Conduct, per N.J.A.C. 6A:16-7.1(a)2.

The district will identify a range of strategies and resources, which could include, but not be limited to, the following actions for individual victims: counseling; teacher aides; hallway and playground monitors; schedule changes; before and after school supervision; school transportation supervision; school transfers; and therapy.

J. Reprisal or Retaliation Prohibited

The consequence and appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the administrator after consideration of the nature, severity and circumstances of the act, in accordance with case law, Federal and State statutes and regulations and district policies and procedures.
